

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

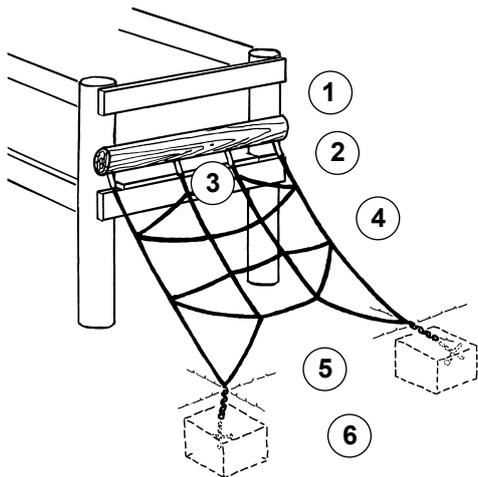

Intervals for maintenance work and checks generally depend on

- location
- kind of use
- frequency of use
- possible vandalism

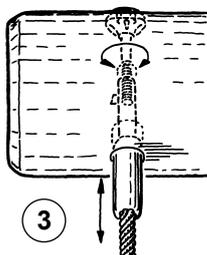

For more details see also "General instructions for maintenance of playgrounds".

Inclined Climbing Net
as attachment to platforms

Order No.	Height
3.69110	1.50 m
3.69115	1.50 m
3.69140	1.00 m
3.69160	1.50 m
3.69180	2.00 m

Detail

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that the beam is fastened properly to the platform, retighten bolts and screws if necessary.

Climbing net

3. Check that connection points are tight and retighten if necessary (see detailed diagram).
4. Check the net for wear and tear, if the steel reinforcement is damaged it is imperative it be replaced.
5. If necessary re-tension the net at the bottom ends.

Structural stability

6. Uncover the foundation once a year and check the connection (tensioning hook) to the anchoring chain.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:
