

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

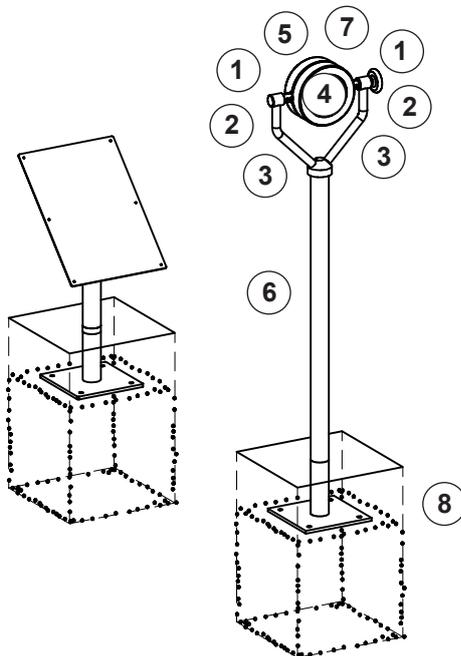

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Glass Prism
Order No. 10.31100

Mechanical parts

1. Check object frame – must be freely rotatable on the light incidence axis.
2. Check bearing – must not move too smoothly, i. e. fast swing must be prevented (risk of injury).
3. Check vertical bearings within the post – must move smoothly.

Prism

4. Check that prism sits firmly in the fixture.
5. Check the inside of the prism – must be free of condensation.

Stainless steel

6. Clean with stainless steel spray (www.kimtec.de) using a clean cloth.

Glass

7. Clean with standard dishwashing liquid using a lint-free cloth.

Structural stability

8. Check anchoring to the ground once a year

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment	<input type="checkbox"/>	
Repair not carried out, equipment is taken out of action	<input type="checkbox"/>	
All work carried out, everything is in order	<input type="checkbox"/>	

Maintenance carried out by: _____ Date
