

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

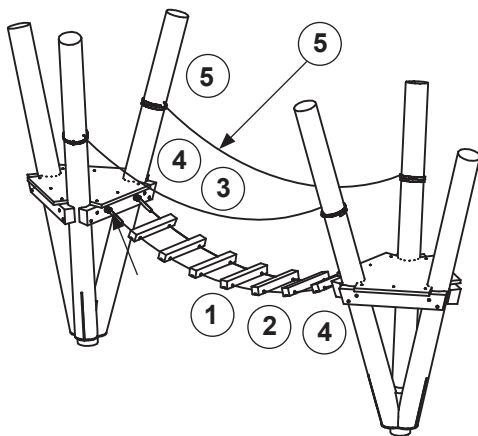

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

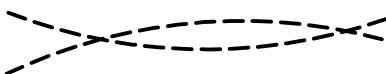

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Rope bridge with walking boards between triangular platforms
Order No. 3.69825

5

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that walking boards are securely connected to the roes.

Ropes

3. Check for wear and tear, especially around the staples used to attach the handrail ropes; if the steel reinforcement is damaged it is imperative it be replaced.
4. Check that access ropes are connected firmly to the triangular platforms, re-tension if necessary.
5. Check that staples holding the ropes are connected firmly.

Important

It must not be possible to form loops with the handrail ropes.

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date
